

HAVE SCHEDULE FOR MOTOR TRAINS

Officers of Quartermaster Department Keep Record of Cars' Movements.

International News Service:

COLUMBUS, N. M., May 25.—A motor truck transportation system, operated over roads composed in unbelievable ratio of ruts, on schedules as exacting as those of any railroad—such is the scheme of things by which 17,000 of Uncle Sam's soldiers in Mexico are kept clothed, fed and provided with arms and ammunition.

In a little frame shack that is the office of Maj. Madden, Capt. Whitman, Capt. Pearson, Capt. Lee and Capt. Hansen, the four directing heads of the base quarter-master department, is a road map covering all stations of United States troops in Mexico.

Every day numbered pins are shifted along this road map, and each shift marks the progress of a truck train. Invoices, showing just what each truck in each train carries, and just where each load is consigned, are kept on file. Never for an instant is any item, from a package of pins to a bale of hay, lost sight of. Never until the truck train commander turns over receipts for his load is an invoice taken from the "live" files.

Ten Truck Trains.

There are 10 truck trains of 27 cars each. A commissioner officer commands each train, and with him is another officer who commands the truck guard, consisting of one soldier to each truck.

As the train goes on down the line of communication, reports are flashed back to Maj. Madden's office, and the pins on the chart are moved accordingly.

The exigencies of the campaign are forcing small detachments out along the border for patrol duty, some of them 20 or 30 miles from a telephone or telegraph line. The quartermaster's department is therefore considering establishing a borderwise automobile transportation line to carry supplies to the outlying patrols.

Two captains in the trucking service have left the base camps here in the past week to work out a feasible route with the chief quartermaster at San Antonio, and with their departure comes the announcement from Washington that three more truck trains have been ordered from a large eastern factory to carry on the new line of activity.

Eighteen hundred miles of border and 20,000 soldiers sounds like an undertaking. But here is what the transportation captains say: "Give us trucks enough and we can move New York to the Gulf of California and back again."

PREPAREDNESS BILLS

ALL MOVE FORWARD

WASHINGTON, May 25.—All three of the administration's big preparedness measures moved forward a step toward enactment on Thursday.

The army appropriation bill carrying \$150,000,000 was agreed upon by the house military committee; democratic leaders of the house prepared a special rule under which the naval appropriation bill will be taken up in the house next Monday or Tuesday to be voted on not later than Friday afternoon at 4 o'clock and the Hay-Chamberlain army reorganization bill, already passed by both houses of congress was sent to President Wilson for his signature.

General debate on the naval bill will be limited. The republicans will make a fight for a larger building program. The democratic leaders are confident, however, that the bill with its program, including provision for five great battle cruisers, will be passed by a substantial majority.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling. Simply get an ounce of othine—double strength—from any druggist, and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.—Adv.

Look for the Devil

P. D. Q.

Look for the devil's head on every package of Pesky Devil's Quietest (P. D. Q.), made in Indiana, then you will have the chemical compound that actually rises the worst infected house of Bed Bugs, Ants, Roaches and Fleas. Impossible for them to exist with its proper use. 25c package makes one quart. At drug stores, or sent postpaid 25c, stamps or coin, by Owl Chemical Co., Terre Haute, Ind.
